

KEY INFORMATION DOCUMENT

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

PRODUCT

Product:	Wealins Life UK	Call	+352 437 43 5200 for more information
Insurance Company:	WEALINS S.A.	Regulator:	Commissariat aux Assurances (CAA)
Website:	www.wealins.com	Date of production of the document:	01/01/2020

You are about to purchase a product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT?

Type	Unit-linked life insurance contract
Objectives	<p>Wealins Life UK is a life insurance contract linked to one or several investment funds. It allows for non-scheduled premium payments and surrenders. Its currency is EUR (default currency), GBP, USD or any other currency chosen by you and accepted by us. The net premium is invested into units of one or several internal dedicated funds issued by us. An internal fund is a segregated pool of assets of an insurance company. An internal dedicated fund is a fund that serves as an investment support to one single contract. It is managed in accordance with the investment strategy chosen by you and the applicable investment rules set forth by the CAA and UK permitted assets by an asset manager appointed by us. Alternatively you may choose to invest the net premium into a selection of external funds or a collective internal fund. An external fund is a collective investment vehicle set up and run by a party other than an insurance company and subject to an approval procedure and ongoing financial supervision by an official regulatory authority. An internal collective fund is a fund open to a multitude of policyholders. It is managed in accordance with the investment strategy of the fund and the applicable investment rules set forth by the CAA by an asset manager appointed by us. You may choose between various underlying investment options according to your investment profile and, where applicable, the chosen investment strategy. Specific information on each chosen underlying investment option is provided in the Specific Information Document for such investment option, complementing this Key Information Document, which will be provided to you and is also available on our website https://www.wealins.com/en/PRIIPs-KIDs. The funds do not include any guarantee of performance. You bear the entire risk of the performance of the fund(s) linked to Wealins Life UK, i.e. the risk of significant potential losses. Indeed, the value of Wealins Life UK depends on the evolution of the value of the units of the chosen funds. That value reflects the value of the underlying assets and is subject to fluctuations depending mainly on the evolution of the financial markets. The risk and reward profile of Wealins Life UK is determined by the below mentioned recommended holding period. Risks might be higher and reward lower if you don't keep the product for the recommended holding period.</p>
Intended retail investor	The targeted investor for Wealins Life UK is a natural person or a legal entity living or established in UK or a UK citizen living abroad who wants an insurance contract governed by UK law. He is able to invest an initial premium of minimum EUR 250,000, seeks long term performance and the benefits of a life insurance contract (e.g. wealth planning, family protection). He is prepared to take investment risks and bear significant losses on his investment, knowing that the value of his insurance contract is subject to fluctuations of the value of the chosen funds, i.e. their underlying assets. The targeted investor varies on the basis of the underlying investment options depending on his risk appetite, knowledge of financial markets and past experience.
Insurance benefits and costs	<p>In case of death of the relevant insured person, the basic death cover is an amount equal to 100.1% of the contract value with a maximum of 5,000 EUR for the 0.1%.</p> <p>The possible value of this benefit is shown in the section entitled 'What are the risks and what could I get in return?' of the Specific Information Documents for the underlying investment options (available under https://www.wealins.com/en/PRIIPs-KIDs). The biometric risk premiums of this basic death coverage are taken into account in the 'Costs over time table' and are calculated based on the assumption of a 45 year old insured person in good health. Instead of the basic death cover you may choose an optional pure life cover (you will find more details under 'Other relevant information'). The risk premiums for the death coverage are calculated on the proportion of the coverage exceeding the contract value (capital at risk). The basic death cover or optional pure life cover are available to all insured persons in good health. In any case, the total amount payable in addition to the contract values (capital at risk) of all insurance contracts established on the life of the same insured person shall never exceed EUR 1,500,000. Wealins Life UK does not provide the right to participate in profit-sharing.</p>
Product Term	Wealins Life UK can be subscribed for the entire life of the insured person (whole of life). There is no maturity date and Wealins Life UK comes to an end upon death of the relevant insured person. We are not entitled to unilaterally terminate Wealins Life UK.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as ranging from 1 out of 7 to 7 out of 7 which is from the lowest risk class to the highest risk class. This rates the potential losses from future performance at a very low to very high level and poor market conditions are from very unlikely to very likely to impact our capacity to pay you.

Be aware that the underlying assets may be invested in currencies other than the currency chosen for Wealins Life UK which might also be different from your home currency. In those cases you run a currency risk. This risk is not considered in the risk indicator shown above.

Where the underlying assets comprise assets with no or reduced liquidity, transactions may have to be realised over an extended period of time. The resulting risks of financial losses or other damages are entirely borne by you.

The risk of Wealins Life UK may be significantly higher than the one represented in the summary risk indicator where Wealins Life UK is not held for the recommended holding period.

As Wealins Life UK may imply long disinvestment notice periods (for some types of underlying assets) we draw your attention to section 'How long should I hold it and can I take my money out early?'.

This product does not include any protection from future market performance so you could lose some or all of your investment.

This product does not hold any capital guarantee against credit risk. If we are not able to pay you what is owed, you could lose your entire investment (see the section 'What happens if WEALINS S.A. is unable to pay out?').

Performance scenarios

The risk and return of the investment varies on the basis of the underlying investment options. The performance of Wealins Life UK depends on the performances of the funds selected by you. The tax legislation of your state of fiscal residence may have an impact on the actual payout of Wealins Life UK. Specific information on each underlying investment option is provided in the Specific Information Document for such investment option, available on our website <https://www.wealins.com/en/PRIIPs-KIDs>.

WHAT HAPPENS IF WEALINS S.A. IS UNABLE TO PAY OUT?

As there is no guarantee scheme in Luxembourg to indemnify policyholders in case of default of WEALINS S.A. and in order to limit the financial losses that could be encountered by policyholders and/or beneficiaries, the Luxembourg legislation foresees that the underlying assets of insurance contracts are segregated from the own assets of WEALINS S.A. Those underlying assets are indeed governed by custodian agreements previously agreed by the CAA with custodian banks. Through those custody agreements, the CAA has an obligation to control and the right to block those segregated assets. In case of failure of the insurer, the segregated assets are thus protected in relation to the other assets of the insurer and policyholders and/or beneficiaries have collectively the quality of privileged first rank creditors over those segregated assets ranking above all other creditors. This allows them to recover first and foremost all claims related to the execution of their insurance contracts. Policyholders and/or beneficiaries are moreover potentially exposed to the default of a custodian bank with regard to the liquidities deposited with that bank which might be partially or totally lost, whereas it should be possible to recover the securities deposited there in full.

Wealins Life UK is covered by the Financial Services Compensation Scheme. You may be entitled to compensation if we cannot meet our obligations. This depends on the type of business and circumstances of the claim. The scheme covers this type of policy for 90% of the claim with no upper limit.

Further information about compensation arrangements is available from:

Financial Services Compensation Scheme
7th Floor, Lloyds Chambers

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself and of the investment options, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future. The costs for the investor vary on the basis of the underlying investment option(s) chosen.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment 10,000 EUR Scenarios	If you cash in after 1 year	If you cash in after 5 years	If you cash in after 10 years
Total costs	From 108.87 EUR to 894.63 EUR	From 560.13 EUR to 2,776.44 EUR	From 1,161.25 EUR to 5,964.73 EUR
Impact on return (RIY) per year	From 1.09 % to 8.95 %	From 1.09 % to 4.89 %	From 1.09 % to 4.37 %

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

This table shows the impact on return per year			
One-Off costs	Entry costs	From 0.00 % to 0.54 %	The impact of the costs you pay when entering your investment. The impact of costs is already included in the price. This includes the costs of distribution of your product.
	Exit costs	From 0.00 % to 0.00 %	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	From 0.03 % to 0.11 %	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	From 1.06 % to 3.74 %	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance Fee	From 0.00 % to 0.00 %	The impact of performance fees. We take these from your investment if the product outperforms its benchmark.
	Carried interests	From 0.00 % to 0.00 %	The impact of carried interest. We take these when the investment has performed better than a given percentage.

The costs for the retail investors vary on the basis of the underlying investment option and the size of the investment. This is why we present the figures as a range of costs in the above tables. Specific information on each underlying investment option is provided in the Specific Information Document for such investment option, available on our website <https://www.wealins.com/en/PRIIPs-KIDs>.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: 10 years

You have a period of 30 calendar days from receiving notification that the contract has commenced in which to cancel the insurance contract by sending us your cancellation letter, accompanied by the policy schedule and any endorsement thereto, by registered letter to our registered office. The above mentioned recommended holding period has been defined based on a medium to long-term investment horizon. To obtain certain fiscal benefits in accordance with the locally applicable tax law the necessary holding period may be shorter or longer. Surrenders are possible at any moment after the expiry of the free cancellation period but may have a negative effect on the performance of the underlying investment option and/or imply potential loss of fiscal benefits associated with insurance products held for the required minimum periods of time. Furthermore surrenders of the insurance contract may be subject to potentially long disinvestment periods for some underlying assets.

HOW CAN I COMPLAIN?

In cases of dispute, and without prejudice to your right to pursue other legal action, you may contact our complaints department, in this case the compliance department, either via the e-mail address reclamations@wealins.com or our P.O. Box L-2986 Luxembourg, or the mediators of the insurance sector in Luxembourg (ACA).

Your requests for mediation with the supporting documentation must be sent

- either to the e-mail address mediateur@aca.lu,
- or to the P.O. Box of the ACA : B.P. 448, L-2014 Luxembourg, Tel. : +352 44 21 44 1, Fax +352 44 02 89.

You may also contact the Luxembourg Commissariat aux Assurances: 7, boulevard Joseph II, L-1840 Luxembourg, Tel. : +352 22 69 11-1, Fax : +352 22 69 10, E-mail : caa@caa.lu

OTHER RELEVANT INFORMATION

Scope of the calculations: The form and content of this document have been implemented in compliance with the requirements of the applicable regulation. All calculations are based on assumptions (holding period, insurance contract and banking costs, age and health status of the insured person). The results of those calculations would therefore be different if the policyholder and the insured person were in a situation differing from the assumptions taken for working out this document.

Optional pure life cover: Instead of the basic death cover you may choose either a percentage of the premiums paid or a percentage of the contract value as optional pure life cover. When the (average) age of the Insured Person(s) reaches 80, the amount of the additional cover (sum insured) is limited to maximum EUR 5,000. The biometric risk premiums of these optional pure life covers are not included in the 'Costs over time table' but are stated in the Key Fact Sheets on Optional Pure Life Cover.

Additional regulatory information on the product can be requested by e-mail. You will then be able to receive it either as a printed or digital version. All mandatory documents are made available on the website www.wealins.com. The Key Features Document, General Terms And Conditions, Key Facts Sheet on Optional Pure Life Cover, Tax Information Notice, Application Form, Investment Rules for Contracts linked to Investment Funds, Notice: Conflict of interest and the Notice: Assets exposed to specific risks and Notice: Illiquid assets setting out the Specific Risks for Wealins Life UK, are available to potential investors on request.
