WHAT IS THIS PRODUCT?

Type	Unit-linked capitalisation contract
Objectives	<p>Generally speaking, Wealins Capi Monaco is a personal capitalisation contract with non-scheduled premium payments and surrenders linked to one or more investment funds. Its object is to pay to the policyholder or to the designated beneficiary the value of the contract net of fees on expiration of the contract.</p> <p>Wealins Capi Monaco is denominated in EUR (default currency) or any other currency chosen by you and accepted by us.</p> <p>You can invest your net premium in the range of investment funds that we make available. These may include both external and internal funds.</p> <p>An external fund is a collective investment vehicle set up and run by a party other than an insurance company and subject to an approval procedure and ongoing financial supervision by an official regulatory authority.</p> <p>An internal fund is a segregated pool of assets of an insurance company. Internal funds may be collective, dedicated or specialised insurance funds, and in our case they do not offer a guaranteed return.</p> <p>An internal collective fund is a fund open to a multitude of policyholders. It is managed in accordance with the investment strategy of the fund and the applicable investment rules set forth by the CAA by an asset manager appointed by us.</p> <p>An internal dedicated fund is a fund that serves as an investment support to one single contract. It is managed in accordance with the investment strategy chosen by you and the applicable investment rules set forth by the CAA by an asset manager appointed by us.</p> <p>A specialised insurance fund (FAS) is an internal fund other than an internal dedicated fund that serves as investment support to a single contract. Its units are freely chosen and allocated by you or your mandate holder in accordance with your investment profile and the applicable investment rules set forth by the CAA.</p> <p>You may choose between various underlying investment options according to your investment profile and, where applicable, the chosen investment strategy. The Key Information Documents pertaining to the various investment options, with the exception of external funds, are available on our website https://wealins.com/en/priips. Specific information relating to the external funds of your choice is made available in the Key Investor Information Documents (KIID) that you will find on the Internet pages of the promoters of those funds.</p> <p>The funds do not include any guarantee of performance. You bear the entire risk of the performance of the funds linked to Wealins Capi Monaco, i.e. the risk of significant potential losses. Indeed, the value of Wealins Capi Monaco depends on the evolution of the value of the units of the chosen funds. That value reflects the value of the underlying assets and is subject to fluctuations depending mainly on the evolution of the financial markets. Wealins Capi Monaco does not offer any right to participate in profit sharing.</p> <p>The risk and reward profile of Wealins Capi Monaco is determined by the below mentioned recommended holding period. Risks might be higher and reward lower if you don't keep the product for the recommended holding period.</p> <p>More specifically, within Wealins Capi Monaco with the investment option Investment strategy Conservative 5 at least 95% of the capital will be invested in bonds, money market instruments and / or comparable assets. Up to 5% of the capital will be invested in shares and / or other speculative financial instruments.</p>
Intended retail investor	<p>Generally, the target investor for Wealins Capi Monaco is a natural person living in Monaco or a Monegasque citizen living abroad who wants a capitalisation contract governed by French law, subject to the overriding mandatory rules of Monaco. The French Insurance Code applies to Monaco through Order n° 3.041 of August 19, 1963 and Order n° 4.178 of December 12, 1968. He is able to invest an initial premium of minimum EUR 125,000 and seeks long term performance. He is prepared to take investment risks and bear significant losses on his investment, knowing that the value of his capitalisation contract is subject to fluctuations of the value of the chosen funds, i.e. their underlying assets.</p> <p>More specifically, the targeted investor for Wealins Capi Monaco with the investment option Investment strategy Conservative 5 has a conservative risk profile and seeks, above all, the safety of his investment through a low risk exposure.</p>
Product Term	Wealins Capi Monaco is subscribed for a specific duration of your choice. We are not entitled to unilaterally terminate Wealins Capi Monaco, unless you have deliberately or fraudulently provided us with false or incomplete information or have omitted to provide us with significant information.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as class 2 out of 7, which is a low risk class. This rates the potential losses from future performance at a low level and poor market conditions are very unlikely to impact our capacity to pay you.

Be aware that the underlying assets may be invested in currencies other than the default currency of, respectively the currency(ies) chosen for Wealins Capi Monaco and for the investment option Investment strategy Conservative 5. In such case you run a currency risk. This risk is not considered in the risk indicator shown above.

Where the underlying assets comprise assets with no or reduced liquidity, transactions may have to be realised over an extended period of time. The resulting risks of financial losses or other damages are entirely borne by you.

The risk of Wealins Capi Monaco with the investment option Investment strategy Conservative 5 may be significantly higher than the one represented in the summary risk indicator where Wealins Capi Monaco with the investment option Investment strategy Conservative 5 is not held to maturity or for the recommended holding period.

As Wealins Capi Monaco with the investment option Investment strategy Conservative 5 may imply long disinvestment notice periods (for some types of underlying assets) we draw your attention to section 'How long should I hold it and can I take my money out early?'

This product does not include any protection from future market performance so you could lose some or all of your investment. This product does not hold any capital guarantee against credit risk. If we are not able to pay you what is owed, you could lose your entire investment (see the section 'What happens if WEALINS S.A. is unable to pay out?').

This table shows the money you could get back over the next 10 years, under different scenarios, assuming that you invest EUR 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product and the investment option, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

Calculation of the performances: The performance scenarios have been calculated in compliance with the requirements of the applicable regulation. They do not constitute a commitment by us and give no indication with regard to the real performance of Wealins Capi Monaco with the investment option Investment strategy Conservative 5.

WHAT HAPPENS IF WEALINS S.A. IS UNABLE TO PAY OUT?

As there is no guarantee scheme in Luxembourg to indemnify policyholders in case of default of WEALINS S.A. and in order to limit the financial losses that could be encountered by policyholders and/or beneficiaries, the Luxembourg legislation foresees that the underlying assets of insurance contracts are segregated from the own assets of WEALINS S.A. Those underlying assets are indeed governed by custodian agreements previously agreed by the CAA with custodian banks. Through those custody agreements, the CAA has an obligation to control and the right to block those segregated assets. In case of failure of the insurer, the segregated assets are thus protected in relation to the other assets of the insurer and policyholders and/or beneficiaries have collectively the quality of privileged first rank creditors over those segregated assets ranking above all other creditors. This allows them to recover first and foremost all claims related to the execution of their insurance contracts. Policyholders and/or beneficiaries are moreover potentially exposed to the default of a custodian bank with regard to the liquidities deposited with that bank which might be partially or totally lost, whereas it should be possible to recover the securities deposited there in full.

WHAT ARE THE COSTS?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the Wealins Capi Monaco product itself and of the investment option Investment strategy Conservative 5, for three different holding periods. They include potential early exit penalties. The figures assume you invest EUR 10,000. The figures are estimates and may change in the future.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment 10,000 EUR Scenarios	If you cash in after 1 year	If you cash in after 5 years	If you cash in after 10 years
Total costs	From 108.65 EUR to 612.48 EUR	From 546.37 EUR to 2,304.33 EUR	From 1,121.92 EUR to 4,137.88 EUR
Impact on return (RIY) per year	From 1.09 % to 6.12 %	From 1.07 % to 4.87 %	From 1.07 % to 4.62 %

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- What the different cost categories mean.

This table shows the impact on return per year			
One-Off costs	Entry costs	From 0.00% to 0.20%	The impact of the costs you pay when entering your investment. The impact of costs is already included in the price. This includes the costs of distribution of your product.
	Exit costs	From 0.00% to 0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	Portfolio transaction costs	From 0.03% to 0.10%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	From 1.04% to 4.32%	The impact of the costs that we take each year for managing your investments.
Incidental costs	Performance Fee	From 0.00% to 0.00%	The impact of performance fees. We take these from your investment if the product outperforms its benchmark.
	Carried interests	From 0.00% to 0.00%	The impact of carried interest. We take these when the investment has performed better than a given percentage.

The costs for the retail investor vary mainly on the basis of the size of the investment and of the underlying financial assets. This is why we present the figures as a range of costs in the above tables.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MY MONEY OUT EARLY?

Recommended holding period: 10 years

You have a period of 30 days from the time when you are informed that the contract has taken effect to cancel the contract by sending us your cancellation letter by registered letter with acknowledgement of receipt to our registered office. The above mentioned recommended holding period has been defined based on a medium to long-term investment horizon. Surrenders are possible at any moment after the expiry of the free cancellation period but may have a negative effect on the performance of the underlying investment option. Furthermore surrenders of the capitalisation contract may be subject to potentially long disinvestment periods for some underlying assets.

HOW CAN I COMPLAIN?

In cases of dispute, and without prejudice to your right to pursue other legal action, you may contact our complaints department, in this case the compliance department, either via the e-mail address reclamations@wealins.com or our P.O. Box L-2986 Luxembourg, or the mediators of the insurance sector in Luxembourg (ACA).
